

Comfortable

Confident

Competent

So, you want to be your own boss?

Sow the seeds for a successful future and join our Business Enterprise And Nurturing (B.E.A.N) programme. It gives you more of the 3Cs! You'll be more Comfortable, more Confident and more Competent. Work with us and watch your business grow!

For two days you get the opportunity to consider: what self-employment means to you, forms of trading, legislation, marketing and social media, finance, building confidence, business planning and more. A Development Programme accredited by the Institute of Leadership and Management for added kudos and credibility.

Following the course, our nurturing continues with “add on”:

- Email support during the next three months of trading
- Mentoring and a six-month review (paid for service)
- Membership of our LinkedIn group for business owners
- Signposting to various networking groups – many are free
- Free downloadable internet “handy hints” and resources
- Support workshops – some funded if you meet the criteria

Carol's enthusiasm and business knowledge ensured I picked up a range of invaluable tips during the training. In addition, my morale has been boosted and I am now more confident about succeeding in my planned business venture.

Richard Smith, ICT Consultant
